EE316: Final Announcement

(08/06/2003)

Early Final
Students who have finished all the units by August 6th will be allowed to take the early final. This final will be given on Friday, August 8th, 7-10 pm in ENS 335. You must bring your student ID.

Final Exam Information
You can take a final scheduled earlier than your official final exam time by signing up on the sign-up sheets. The sign-up sheets will be posted in ENS-335 by Monday, August 11th so that you can sign up for an earlier exam time if you desire. You cannot take a final that is scheduled later than your official final exam time. There will be eight problems, each of equal weight, on the final exam. Partial credit will be given on the problems for the final. The time limit for the exam is three hours. In order to complete all the problems in the allotted time, it will be necessary to prepare adequately for the exam. We suggest that you read the objectives for every unit, and review the material relating to any of the objectives for which you do not feel adequately prepared. Since there will be no regrades on the final exam, read each problem carefully before you start working. Work the problems carefully to avoid careless errors. See Unit 0 for the weight of the final exam in the course grade.

Final Exam Instructions
If you did not take the early final, you must take the final with the section for which you are officially registered or with a section whose final exam is scheduled at an earlier time. If you do not plan to take your final with your regular section you must sign up in advance on the sheets posted on the wall. YOU DO NOT NEED TO SIGN UP IF YOU PLAN TO TAKE THE FINAL WITH THE SECTION FOR WHICH YOU ARE REGISTERED.

End of the Semester Policy
As the semester comes to an end, we are expecting a dramatic increase in the number of people wishing to take tests. Attendance is not required for the last week of class. Since most students wait until the last minute to take tests, huge crowds of people arrive during the last few days. The limit of two tests per day will be strictly enforced. To ensure fair test distribution, we will give preference to people who come to take tests at their own section times. We will have waiting lists when the room is filled to capacity. You must have your homework GRADED before you can be put on the waiting list - just having it in the box is insufficient. We will ask you to show your
graded homework before putting you on the list, so bring it up to the desk with you. If you want to make sure that you are able to take a test on a given day, please come well in advance of the last times the tests are issued. People showing up at the last moment might not receive a test if there is a long waiting list.

**Use of PCs in the EE 316 Lab (ENS 335 and ENS 329)**
During the last week of class, the PCs in the EE 316 labs are reserved for those students who are ready to download to the CPLD boards. All other students should work in one of the LRC labs and complete their simulation exercises there. Students who are waiting to have homeworks or tests graded are not allowed in the lab area.

**Course Surveys**
All students should fill out the course surveys when they take the Unit R2 or during the last week of class. Pick up the survey forms from the front desk, fill them out while you are waiting to get graded or after completing the test, and put them in the lock box under the front desk. If you are unable to fill out a survey before the final, please fill one out after the final.
